

HOME RULE TAX "LET CAMPAIGN GO ON AT ONCE"—ROOSEVELT

Says Wilson Should Continue On Stump—No One Man Should Count

State Organization of Farmers Attacks Scheme to Confuse Tax Systems

BAD FOR BUSINESS

Members Will Make Fight Against Constitutional Amendment

(Special to the Republican.)

SEASIDE, Oct. 17.—The State Grange, during its session today, delivered to the home rule in taxation amendment the hundred blow it has received since it was placed on the ballot through the initiative petition. After a discussion lasting the entire afternoon, the Grangers adopted by a overwhelming vote the report of a special committee appointed to investigate the subject.

Several of the most eloquent advocates of home rule presented arguments before the full meeting, but appeals could not withstand the force of the taxation report presented by Chairman E. L. Hunt of Napa. The only opposing address before the Grange was made yesterday by Professor Carl G. Pleim of University of California. Many members of the Grange agreed after the session to take up the work of defeating the amendment in their respective communities.

The report as approved expresses a belief that the interests of the state would be best preserved by defeat of the measure, and predicted the levy of a special deficiency tax by the next session of the legislature.

Continuing it says: "The whole trend of the proposed legislation is away from uniformity for which we should always strive. We believe the change would result in endless confusion. The general unsettled condition which would result from different methods of taxation would tend to discourage the investment of outside capital, which we need. We believe tax exemptions would lead to creation of special privileges favoring certain interests, a result we should discourage."

"The Grange stood on record as favoring the poll tax."

TO CONCENTRATE AGAINST DIAZ

Mexican Government Abandons Campaigns in Other Directions

(Special to the Republican.)

NEW YORK, Oct. 17.—Miss Oldham, who has charge of the girls in the Bayonne, N. J., high school, made some head-to-foot criticisms today. She addressed the girls, saying:

"You girls are too profane in the use of paint and rouge, and you will have to stop the practice at once. We do not care to be treated to moving pictures in this school, and neither do we want any 'Gaulries' or living oil paintings around here. This is a public school and not an art gallery."

At the same time there are questions to be settled. There is the great life of the country to go on and we cannot afford to have it go on without guidance. My battle against the Republican administration of the past is that under them we have gone nowhere. We have drifted. We have been without plots; we have been without charts."

"No man has laid down any intelligent course and in these latter years we have been absolutely paralyzed. A

Democratic House, a Senate mixed of Democrats and Republicans and near Republicans men who have revolted against the policy of the Republican party and were coming very slowly around to the position which their Democratic colleagues had long occupied and even a President unwilling to see even a united House when they could, upon rare occasions unite, accomplish anything to change the existing order of things; a President who though he had condemned one of the most conspicuous schedules of the present tariff was not willing that the Congress should change it, but only willing that it should be changed under the advice of a board of his appointment. A singular situation my fellow citizens; a situation where the President withdraws his assent from the very kind of reform, the very specific reform which not in its details, but in its general purpose he had himself endorsed, showing that what you are asked to do, in being asked to vote for a Republican administration is one or the other of two things."

"You are either asked to drift under no guidance at all, or you are asked to stand still absolutely."

ROOSEVELT'S BROKEN RIB IS BEGINNING TO KNIT SAY DOCTORS

(Special to the Republican.)

SANTA MONICA, Oct. 17.—Two hundred ranchmen who went into the Malibu mountain wilderness, located on government land, and built houses for themselves and their families, believe they are in danger of losing their property through the action of the Ridge Company—an incorporation of the heirs to the great Ridge estate—and today they came out in an ultimatum saying:

"We'll fight until we spill our last drop of blood in the road. We will open path to our homes by force of arms if necessary, but we will not be driven from them."

Ridge was common clubs were used, weapons were flourished and fire discharged.

The company has done everything to avoid strife, and to protect the lives and property of its employees, according to its superintendent.

RENO, Oct. 17.—Captain J. P. Donnelly, in charge of the Nevada state police, expects to leave Reno to-night at the head of forty armed men for Ely, Nev., in response to orders received from Governor Tasker L. Oddie, who now is at the Nevada capitol.

Killing was common clubs were used, weapons were flourished and fire discharged.

The company has done everything to avoid strife, and to protect the lives and property of its employees, according to its superintendent.

RENO, Oct. 17.—Captain J. P. Donnelly, in charge of the Nevada state police, expects to leave Reno to-night at the head of forty armed men for Ely, Nev., in response to orders received from Governor Tasker L. Oddie, who now is at the Nevada capitol.

The total strength of the Nevada state police is five men, but the governor is authorized to augment this number to 250.

TWO LANDS ARE DISPUTED

CHICAGO, Oct. 17.—Throughout a day of unbroken calm, Colonel Roosevelt lay in his bed at Mercy hospital, with apparent enjoyment of the situation.

Colonel Roosevelt appeared to have recovered from the shock of the bullet which for a time denied his vitality and, so far as a casual observer could detect, he was in high normal condition, but there was no relaxation in the strict regime and his physicians said he was not out of danger.

Colonel Roosevelt's physicians were discussing among themselves tonight the necessity for the colonel to remain in the hospital.

The clinical records were the most encouraging of any day since Colonel Roosevelt entered the hospital.

During the morning the variation in temperature was limited to two-tenths of a degree and throughout the afternoon it was reported normal. There was virtually no variation in pulse.

The period of possible development of blood poisoning had still another day to run, and although the physicians said a change might occur within any hour of the next day, they were optimistic of the outcome of the rest.

DANGER OF LOCKJAW

The possibility of lockjaw is always to be reckoned with in the case of a bullet wound and it is said that for six or seven days, Colonel Roosevelt will not be regarded as entirely out of danger, should the next day pass without dangerous symptoms.

THE COMMITTEE HAS ADVERTISED

FOR BIDS FOR GRADING

FOR FAIR BUILDINGS

SAN FRANCISCO, Oct. 17.—The Buildings and Grounds Committee of the Panama-Pacific International Exposition has advertised for bids for the grading of the foundation of the Machinery Building and for the construction of the Court of Honor and of the Federal Court.

The Directors of Works has also been instructed to advertise for teams and their equipment, scarpers, wagons, plows and other necessary implements to be used in the construction of all the gardens and courts on the Harbor View site. It is expected that within ten days there will be four hundred head of stock on the grounds with their necessary equipment.

The Committee has also advertised

for bids for the construction of a sewer system in the Foreign Pavilion section.

This contract, together with the two other newer contracts will complete the leveling of the southerly portion of the grounds.

THE POSSIBILITY OF LOCKJAW IS

ALWAYS TO BE RECKONED WITH IN THE CASE OF A

BULLET WOUND AND IT IS SAID THAT FOR

SIX OR SEVEN DAYS, COLONEL ROOSEVELT

WILL NOT BE REGARDED AS ENTIRELY OUT

OF DANGER, SHOULD THE NEXT DAY PASS WITHOUT

DANGEROUS SYMPTOMS.

ITALIAN THREATENS TO KILL WILSON; GOVERNOR GUARDED

WILMINGTON, Del., Oct. 17.—A large number of policemen were distributed among the crowd at the opera house here tonight when Governor Wilson spoke. This was the result of a threat made by an Italian to "shoot him the same as Roosevelt was shot."

The Governor knew nothing of the affair, neither did any member of his immediate party.

This morning Chief of Police Black was notified by Mrs. Sarah Hudson of Wilmington that while her sister, Mrs. Battle Whitson, was leaving her place of employment yesterday, she heard an Italian workman exclaim:

"Wilson will be shot tomorrow and I will get a bullet through him the same way he was shot." I will not put one in him. I will shoot him myself, the old."

The police knew the name of the Italian but have not located him.

MAD DOG BITES FIVE PERSONS IN PICTURE SHOW

GRASS VALLEY, Calif., Oct. 17.—A mad dog leaped through the ticket window of a moving picture show here tonight at the throat of the ticket seller. Employees of the theater ran to the man's aid and after a fight in which five persons were bitten the dog was driven to the street and killed.

Several persons were bitten in Nevada City, where the dog first appeared.

HIGH SCHOOL TEACHER FORBIDS GIRLS' USING ROUGE AND LOUD HOSSES

(Special to the Republican.)

NEW YORK, Oct. 17.—Miss Oldham, who has charge of the girls in the Bayonne, N. J., high school, made some head-to-foot criticisms today. She addressed the girls, saying:

"You girls are too profane in the use of paint and rouge, and you will have to stop the practice at once. We do not care to be treated to moving pictures in this school, and neither do we want any 'Gaulries' or living oil paintings around here. This is a public school and not an art gallery."

Then Miss Oldham lectured the girls on their clothing. She said many of the girls had gotten into the habit of wearing hose of too loud a color and announced that in future the hosiery and shoes would be confined to black and tan colors.

Several of the school girls will take up the matter of black and tan shades with the board of education.

MALIBU RANCHERS WILL FIGHT TO PRESERVE ACCESS TO THEIR LAND

(Special to the Republican.)

SANTA MONICA, Oct. 17.—Two hundred ranchmen who went into the Malibu mountain wilderness, located on government land, and built houses for themselves and their families, believe they are in danger of losing their property through the action of the Ridge Company—an incorporation of the heirs to the great Ridge estate—and today they came out in an ultimatum saying:

"We'll fight until we spill our last drop of blood in the road. We will open path to our homes by force of arms if necessary, but we will not be driven from them."

Ridge was common clubs were used, weapons were flourished and fire discharged.

The company has done everything to avoid strife, and to protect the lives and property of its employees, according to its superintendent.

RENO, Oct. 17.—Captain J. P. Donnelly, in charge of the Nevada state police, expects to leave Reno to-night at the head of forty armed men for Ely, Nev., in response to orders received from Governor Tasker L. Oddie, who now is at the Nevada capitol.

The total strength of the Nevada state police is five men, but the governor is authorized to augment this number to 250.

TO REORGANIZE ITS MISSION FINANCE

(Special to the Republican.)

Episcopal Church in California Makes Changes in Money System

LOS ANGELES, Oct. 17.—The council of the eighth missionary department of the Protestant Episcopal church began today with a warm debate over a resolution involving the abolition of the dependence of the diocese on special gifts for the support of mission work and the ending of local missions on the same basis financially as foreign missions.

Bishop Wells of Spokane, Bishop Spalding of Oregon and Bishop Spalding of Idaho favored the resolution.

"There may be some fine old ladies," said Bishop Spalding, "who are giving special for the support of the schools and hospitals and missions, but they are doing fast."

The resolution passed unanimously after it had been amended by Bishop Wells to memorialize the Board of Missions "to arrange a plan to place bishops in the domestic field on the same basis as in the foreign field."

Seven bishops and fifty rectors gathered in vestments, took part in the proceedings which marked the opening of the council's today. Bishop Williams of San Francisco presided and Bishop Spalding delivered the sermon.

There were short reports from dioceses and missions by bishops and rectors at the afternoon session. Bishop Peter T. Lowe of Alaska was the principal speaker at a luncheon given to the clergymen of the Diocese.

GREEK STRIKERS KILLED DURING FIGHT IN NEVADA

Governor Oddie Declares Martial Law in Mining District

35 WARRANTS ARE OUT

Threats of Violence Continue and More Trouble Is Feared

McGILL, Nev., Oct. 17.—The first bloodshed of the strike of the copper miners and smelters occurred today when two Greek strikers who were shot after an attack had been made on smelters who were on their way to work. The fight occurred at the smelter gates. Immediately following the shooting, Governor Oddie declared martial law to be in force.

Threats of vengeance are heard on every side and the guards are busy.

Warrants were issued today, but not served, for the arrest of men accused of the violence which resulted in the shooting. Several men are accused of complicity in the shooting.

McGILL, Nev., Oct. 17.—In a clash

at the gates of the Stepont smelter stockade, where strike sympathizers had gathered, Nick Pappas and George Barnous, Greeks, were shot and instantly killed. Another Greek was shot through the shoulder.

Warrants have been sworn out, charging officers of the Nevada Consolidated Mining and Smelting Company with murder. Thirty-five John Doe warrants also have been issued.

The identity of those who did the shooting was in doubt. The dead men had been members of a party of two or three hundred foreigners who met the train from Ely this morning and joined by number of strikers from Ely, marched toward the office of the Smelting company.

The crowd was met near the office

by mounted deputy sheriffs and firemen.

The shooting took place near one of the gates to the smelter inclosure.

Warrants will be held in the cathedral, when the archbishop will invoke a blessing on the holy war in which the country is embarking.

The crowd is increasing hourly and an enthusiastic war spirit prevails.

SOFIA, Bulgaria, Oct. 17.—King Ferdinand is on his way to the headquarters of the Bulgarian army near the Turkish frontier. The king's manifesto to the people proclaimed that war will be held tomorrow.

A naval combat occurred on Lake Scutari between a Montenegrin and a Turkish steamer, resulting in the retreat of the Turkish boat.

ST. PETERSBURG, Oct. 17.—The government in the interest of Russian grain exporters has made energetic representations to the Porte and has entered upon negotiations with the great powers with the object of maintaining a free passage of the Dardanelles for merchantmen flying neutral flags.

JOHNSON TO PLAN REST OF CAMPAIGN

To Talk Matters Over With Roosevelt and Progressive Leaders

MARION, Ind., Oct. 17.—With a final shot at Indiana political bosses and a criticism of Governor Marshall for his alleged failure to cause progressive legislation to be enacted, Governor Johnson tonight closed his Indiana campaign and hurried to Chicago to confer with Colonel Roosevelt tomorrow and to deliver two addresses on Friday and Saturday.

Important developments may come out of the meeting with Colonel Roosevelt. The shooting of Colonel Roosevelt practically has thrown the notice of the Progressive party on Governor Johnson and he is anxious to get the Colonel's views on certain problems.

The meeting probably will take place in the afternoon and after the governor will meet Progressive party managers, who anxiously await the conference of the leaders that they may know how to proceed in the last two weeks of the campaign.

SENATOR HEYBURN OF IDAHO DIES

Was Noted at Washington
for His Bitter and Acri-
monious Speeches

WASHINGTON, Oct. 17.—United States Senator Heyburn of Idaho died at his apartment here tonight after a lingering illness. He was 69 years old and had been in the Senate nine years.

A compilation of statistics involving the heart and brain revealed the senator's death. He had not been well since his March, when he collapsed after delivering a speech in the Senate on the arbitration treaty. In spite of the doctor's warning that the effort might cost him his life,

Several weeks ago, apparently gaining strength after a lull, relative the senator and Mrs. Heyburn made preparations for a trip West. Another relapse followed and since then the patient had been growing steadily weaker. Today the doctors thought he was slightly improved, but death came suddenly a few minutes before 8 o'clock tonight. No arrangements have been made for the funeral, but the body will be taken to the old home of Senator Heyburn in Birmingham, Pa., for burial.

CIVIL WAR HATRED.

One of the staunchest of regular Republicans and a man of strong convictions, frank and emphatically expressed on all occasions, Senator Heyburn, for years had been conspicuous figure in the Senate. He was mostly known for his unyielding bitterness toward the South and frequent denunciation of Southern Civil War leaders. He called the placing of Lee's statue in the capitol an insult to the nation, and in discussing this and many other incidents, engaged in acrimonious debates with Southern senators.

During the last few years, since the development of a serious division in the Republican ranks, Senator Heyburn had played a prominent part in the fight for party regularity. He always opposed Colonel Roosevelt's conservation ideas and many of his speeches in the development of the West in which he was keenly interested, were devoted to arguments against the former President's policies.

One of his first acts as a senator to attract public notice was his strong support of the pure food and drug act. The senator's wide range of informa-

TWO MEET DEATH IN TESTIMONY AGAINST ELECTRIC MOTOR CAR ETTOR AND GIOVANNITTI

Witnesses Say Strike Lead-
ers Threatened to Create
Violence

SAN DIEGO, Oct. 17.—An electric motor car hit which killed young men and a young woman who were riding and a heavy brewery truck this evening, killing two occupants of the car and badly injuring two others.

The dead:

Lucie Dickson, 19 years; Sherman Colthrus, 16 years, of axe severely injured;

Frank Dickson and Trevor Dickson, both young men.

On, fine memory and readiness of speech always insured him attention when he rose to speak.

AGAINST SILVER MOVEMENT.

BONNIE, Idaho, Oct. 17.—All Idaho is mourning tonight the death of Senator Heyburn, who has been a prominent figure in the history of the state since 1882. He was one of the most influential factors in the state constitutional convention and has served in the Senate since 1902. It was due to his attitude that the Republican party of Idaho was held together in 1906 instead of its organization being surrendered to the free silver coalition.

SAD NEWS TO BORAH.

LEWISTON, Idaho, Oct. 17.—When the Associated Press dispatch was handed to Senator Borah tonight announcing the death of Senator Heyburn in Washington, Senator Borah was in the midst of an address at Cottonwood, Idaho. He immediately asked his audience to excuse him from continuing. Senator Borah said of Senator Heyburn:

"I am sure this audience will excuse me from discussing politics when my illustrious colleague lies dead at Washington. He died at his post, for the excessive labor that he performed during the last session of Congress, at a time when one less courageous would have retired to save his life, was undoubtedly the cause of his death."

"Senator Heyburn and I often differed on political questions, but I never withheld from him my great admiration for his exceptional ability, his remarkable courage, his singleness of purpose, his untiring devotion to his state and to the nation. The state of Idaho has lost her most distinguished citizen. When I think of his indomitable will, his fearless disregard of all things that would thwart his purpose, it seems impossible to recollect it all with this sad news."

MEXICAN LEADER IN LOS ANGELES JAIL

RED, SCALY ECZEMA YIELDS TO SAXO SALVE.

A Highline, N. Y., woman writes: Since 1903 I suffered from eczema and my skin was very tender, red and scaly, and I could find no relief until I used Saxo Salve. The first application worked like magic, in less than a week the sores were gone and now the skin is healed and smooth, thanks to Saxo Salve.

In all forms of eczema, and all other trusted for seedy humors and eruptions, Saxo Salve has given astonishingly good results. The great improvement that it makes in the first few days shows plainly that you can place full trust in its curative power.

We have so much confidence in it that we give back your money if you are not satisfied with Saxo Salve. Men-
reco Drug Co., Fresno, Cal.

Novel Social Ethics Course

Is Latest at State

Normal

LOS ANGELES, Oct. 17.—It became known today that Manuel Masearnas, Jr., rebel governor of Sonora, Mexico, has been in the Los Angeles City Jail since last Monday when on complaint of Mexican Consul Baz he was arrested on suspicion under the name of Ramon Soto.

Appearing before Judge Wellborn in the Federal Court today, counsel for Masearnas made known their client's identity and at the same time asked for his release on a writ of habeas corpus. Judge Wellborn issued an order returnable tomorrow afternoon, at which time arguments will be heard.

When Masearnas came to Los Angeles is not known. He is suspected of having violated the neutrality law by securing the shipment of arms and ammunition into Mexico for the use of the rebel forces.

Fry Chicken in Cottolene

The best fried chicken you ever ate can be made with Cottolene.

Cottolene can be heated to a much higher temperature than either butter or lard, without burning. It fries so quickly that little of the fat is absorbed, preventing the food being greasy. For this reason, Cottolene-fried food is more healthful than food fried in butter or lard.

Quality Shop

2032 MARIPOSA ST.

Cottolene is more economical than lard — goes one-third farther; costs very much less than butter.

THE N. K. FAIRBANK COMPANY

Don't Blame Your Over Worked Stomach

When your stomach will not digest food, the worst thing you can do is to take a lot of digestive medicines. True, they give temporary relief, but your stomach is the sufferer. Loss of appetite, indigestion, dyspepsia and headaches can only be permanently relieved by removing the cause. In many cases, various remedies taken to relieve these conditions result in ruining the stomach and preventing it from digesting food in a natural way.

If you want your stomach to do its own work properly, without resorting to artificial digestives or predigested foods, use Jayne's Tonic Vermifuge. Take small doses regularly, preferably before meals. In a little time your stomach will again do its own work and you will eat heartily, keep well and enjoy living.

Jayne's Tonic Vermifuge is not a digester in itself, but it tones up the stomach and intestines, giving you all the nutriment and strength from the food you eat.

Many forms of appendicitis indicate the result of intestinal parasites or what Jayne's Tonic Vermifuge is unsurpassed. Insist on Jayne's accept no other. Millions have praised it for more than eighty years. Sold by druggists everywhere. Dr. D. Jayne & Son, Philadelphia, Pa.

HARBORS CLOSED TO FOREIGN VESSELS

WASHINGTON, Oct. 17.—For the protection of the military secrets of the United States, President Taft today issued an executive order forbidding foreign vessels to enter the following ports without the special authority of the navy department:

Torugus, Fla.; Great Harbor, Cuba; Guantamano, Cuba; Pearl Harbor, Hawaii; Guam and Subic Bay, P. I.

The seaports are American naval bases. The order specifically closes the harbors to commercial and privately owned vessels of foreign registry as well as to the warships of foreign powers, unless the secretary of the navy sanctions their entry.

Most of the ports have practically been closed for some time, but today's order officially closes them. Officials declared that there was no reason for the action except the general policy of guarding naval secrets.

SPECIAL STAMPS FOR PANAMA FAIR

SAN FRANCISCO, Oct. 17.—Postmaster General Hitchcock has directed that \$30,000,000 one cent, \$10,000,000 two cent, \$8,000,000 five cent and \$5,000,000 ten cent Panama-Pacific International Exposition postage stamps be prepared and placed on sale in the Postoffices beginning January 1st, 1913. The stamps are about three-fourths of an inch high by one and a sixteenth inch wide. At the top appear the words "U. S. Postage" and "San Francisco, 1913." The one cent stamp is green. In the center appears within a circle a bust of Balboa, discoverer of the Pacific Ocean.

The two cent stamp is red. It represents the twin masts of the Panama Canal.

The five cent stamp is blue and represents the Golden Gate of San Fran-

cisco Harbor.

The ten cent stamp is dark yellow.

The subject is "The Discovery of San Francisco Bay."

ROOSEVELT LEADS IN OREGON; WILSON SECOND; TAFT IS THIRD

Quadangular Fight for U. S. Senator Adds to Keen Political Interest — Many Amendments Under the Initiative to Be Voted Upon in Webfoot State

By CARL SMITH,
(Formerly of Republican Staff.)

PORTLAND, Ore., Oct. 18.—Three weeks before election day the electoral vote of Oregon is a doubtful quantity. The Republicans are divided between Roosevelt and Wilson, with Progressives and Democratic equality supporters. Both parties, published in Eastern newspapers, indicate a possible victory for Taft, who received with distaste here as the Taft men themselves have no hope of winning the state.

The state headquarters of all three parties are in Portland, but the only likely place is that of the Progressives. At the Republican headquarters a country politician occasionally strolls solemnly in and comes suddenly out. At the Progressive, the visitors are more frequent and there is greater warmth. At the Democratic headquarters is a constant human stream and a bustle. Nicely is added by women who come and go with the men, a new experience in Oregon politics, and witness to it only while the new party's council sits in cold.

At the presidential primaries in April Roosevelt polled in round numbers 25,000 votes, La Follette 25,000 and Taft 20,000. Wilson, Clark and Harmon, together had less than 10,000 votes, but this does not represent the full proportional strength of the Democrats, many members of the minority party remaining at home and others participating in the Republican primaries because of the intense interest in local Republican affairs to different parts of the state.

If Roosevelt can hold the vote he received in April, and gain half the La Follette vote, he will be safe. The La Follette vote is the deciding factor. It is not denied that many former followers of the Wisconsin senator have gone over to Taft. Taft's small gains from this source is probably more than balanced by the loss of stand-pat Republicans, who announce their intention to vote for Wilson to "beat Roosevelt."

SENATORIAL FIGHT
A four-cornered fight for United

Consumption

Anyone interested in the treatment of Consumption should get one of the booklets telling of recoveries by the use of Eckman's Alternative. Cougs, Stubborn Colds and Thrombosis may be the beginning of more serious trouble—Eckman's Alternative is the effective remedy. Read Mr. Kanaly's statement:

Saratoga, N. Y.

"Gentlemen: For five or six years I was troubled with cough and expectoration. I also had a high fever. My case was declared Consumption by my physician. I was given Cox Liver Oil, Creosote and other medicines, all without benefit.

"At Christmas time, 1904, I was not expected to live. Calling Dr. R. H. McMurtry, he advised the use of Eckman's Alternative, which I took with excellent results, and was entirely cured. I have gained in weight, I go out in all weather and have had no cough or trouble whatever. I give these facts to encourage others to use Eckman's Alternative."

(Signed) JAS. W. KANALY.

Eckman's Alternative is effective in Bronchitis, Asthma, Hay Fever, Phlegm and Lung Troubles and in the building the system. Does not certain persons practice on habit-forming drugs. For sole by leading druggists. Ask for booklet telling of recoveries, and write to Eckman Laboratory, Philadelphia, Pa., for additional evidence.

State senator complicates the situation. At the primaries Ben Selling, a wealthy clothing merchant of Portland and state senator, defeated Senator Jonathan Bourne for the Republican nomination by about 6,000 votes. Selling has been identified with the Progressive element, but is supporting Taft, and is now backed by almost solid stand-pat support.

Senator Bourne, after long hesitation and carefully viewing the field of combat, has entered the battle as a "popular government candidate." His name being placed on the ballot by independent action signed by 16,000 voters. He has strong support from business interests, but is being bitterly assailed by friends of Selling, who assert that his candidacy as an independent after a defeat at the primary stamps him as a traitor to the principles he claims to represent.

Harry Lane, ex-mayor of Portland, is the Democratic nominee, and a factor to be reckoned with. He is of the fighting type, and when mayor of Portland gained a reputation as an enemy of graft and special privileges. He was regarded by many as a probable winner up to the time Bourne became a candidate. Bourne has cut heavily into his strength by attracting the support of thousands of Republicans who would have voted for the Democrat in preference to Selling.

Alfred E. Clark, a Portland attorney, is the Progressive nominee. He has been handicapped because little is known in the state outside of Portland. Whereas Selling and Lane have been campaigning all through the summer, the Progressive state convention at which he was nominated was not held until three weeks ago. Since then Clark has been touring the state and has been making votes. He is a man of ability, and with a longer campaign might do more to move in. As it is he is not considered as having much chance to win.

The Oregon ballot will be a long one, including thirty-eight measures submitted to popular vote under the initiative and referendum. Among the proposals to be voted are the single tax, bond issue, farm and building loan, suffrage, abolition of the state senate and the abolition of capital punishment. Candidates and measures are so numerous and the lines cross in so many directions that prediction is more hazardous than it has been for many a year.

Are Inevitable; Latter
for Competition

The Million Dollar Company has \$279,000 subscribed last Friday. The subscribers reported were during the week, 2,000.

Some volunteer solicitors who have not reported their names to the office of the California Basin Exchange and a request was issued yesterday that all who have not reported do so at once. One instance of failing to report was received yesterday when a man came into the office and said he had signed some time ago, but his name had failed to appear. The subscription has never been reported.

In order to put subscribers in the districts in which they live, it has been decided to no longer give their names and addresses when to anyone associated, but to give their real names and addresses. The changes will make it easier for the subscribers to identify the locality of their residence locations.

First public address is also decided, that the speakers may know where to address them.

The idea of the associations union to furnish a band for the observance of Million Dollar Day in Fresno has been accepted by the officers of the California Basin Exchange, and the band, led by J. Wesley Clinton, will discourse music throughout the day. The band will give a free concert on the afternoon of Million Dollar Day from the balcony of the Grand Central hotel, and leaders of subscriptions will be posted for the benefit of those interested in the movement.

A gathering of the Heddley business men by representatives Helen and Mabel of the Basin Exchange, who are working an interest in Million Dollar Day, October 21st, has proved very successful and the Heddley merchants and bankers look forward to interesting developments Monday and thereafter.

They responded heartily when asked to circulate subscription lists and boost the corporation, and most of them will take stock. The banks of Reedley are assisting the growers and assuring them of their support, which in itself is a mighty boost for the project.

Over \$16,000 has been subscribed at Reedley and the prospects are excellent for this figure to increase to \$70,000 in a few weeks.

Following is a petition signed by the various business business men of Reedley to show their support of this Million Dollar Day move:

Realizing the great need of staple market and fair prices for raisins and dried fruits, we, the undersigned, hereby agree to observe Monday, October 21st, 1912, as "Million Dollar Day," and we pledge ourselves to make a special effort to raise subscriptions to the "Million Dollar Basin Company" on that day, either in the field or in our respective places of business.

ALLEGED MAN ROBBED OF \$140 IN GOLD

Criminal Charges Will Prob-
ably Be Pressed Against

J. Kennedy Today

That J. Kennedy, a 14-year old student of the Lowell Grammar school, stepped in front of the automobile of George L. Warlow, driven by A. B. McWhorter, yesterday noon at the corner of K and Fresno streets, and was knocked to the ground. The machine was going slow at the time and was stopped within four feet. The boy was hurried to a local sanitarium but examination by Dr. G. L. Long proved that the extent of the lad's injuries was a few slight bruises and he was taken to his home on McKinley avenue.

James J. Maher, whose marriage to Miss Alice M. Apgar, October 16, proved a surprise to his many friends in this valley, is in Fresno stopping at the Sequoia. Mr. Maher was head deputy under Sheriff Bob Cladetton. Officer William Maher of the Fresno police force is a brother of the groom. Mr. Maher will remain in Fresno for some time and then return to Madera, where he will make his home.

Makes Face Young—
Tightens Love Ties

"Anrilla" in Woman's Sphere.

A frugal expression, a wrinkled face and a faded complexion, do more to drive the male members from home than is commonly supposed. It was one of my greatest difficulties to appear smiling, fresh and elegant when my dear ones were with me. But I have overcome all that. I have changed my mental attitude and I now find it second nature to look cheerful. The partly to this partly to a remarkable treatment recommended by a friend, my appearance has so improved I look fifteen years younger than before.

A simple face lotion made by dissolving an ounce of powdered saponite in half-pint witch hazel proved a wonderful wrinkle-chaser. I still use this occasionally. To renovate my complexion I purchased an ounce of ordinary mercurial wax at my druggist's and before using this up, a miraculous transformation had taken place. It was like removing an unctuous mask, revealing a new face, a youthful complexion of distinctive delicacy, clear, white and velvety. I merely applied the wax like cold cream before retiring, washing it off mornings. Ten days' treatment sufficed.

ACACIA CIRCLE

Acacia Circle No. 18, Women of Woodcraft, held a well attended meeting last evening. Those reported as ill were Mrs. Maxson and Bates and Mrs. Lillian Tritton and daughter.

The rumage sale which is being held on F and Dyer streets was reported to be a great success.

Next Thursday afternoon a social will be held at Elsinore hall. Refreshments will be served and card games played. Neighbors Hansen, Hopkins and Bruns served home made cookies and coffee and the evening concluded with cards and dancing.

WHEELER TONIGHT

No man could be better fitted than Charles S. Wheeler of San Francisco to present to the unprejudiced citizens of this city and county the issues upon which the campaign of this year is being fought out. If there is any importance at all to the fight that is being made this year for the election of Theodore Roosevelt as President, it lies in the work of the Progressive party as a protest against the domination of the national Republican and Democratic organizations by political tradition and by present day politicians whose interests lie with the corporations rather than with the people. It is this manifestation of the Progressive spirit of the day, which has taken complete possession of the Republican party of this state, that will be expressed by Charles S. Wheeler tonight.

A man of brilliant gifts, an impressive orator, one who has made a success of legal practice without finding it necessary to defy the courts in order to conserve ideas of justice, a sincere progressive who has kept clearly in view the importance of the movement as independent of the personal fortunes of those engaged in it; a man who has worked independently of the Johnson administration in this state and is therefore not a mere follower of the governor; and finally one of those delegates to the last Republican national convention who were instructed by a majority of 77,000 to vote for the nomination of Theodore Roosevelt and who would, in doing so, have voted for the successful candidate had it not been for the crude work of a packed national committee—no man can more truthfully and sincerely present to the people of Fresno the faith that is in the Progressive leaders or the reasons why the Progressive movement should continue to receive the whole-hearted support of this state.

It is a matter of regret that we, who have so fully supported the fight of Governor Johnson for clean politics, cannot hear him during the present month. But Mr. Wheeler will present the issues just as forcefully, and Johnson is needed in the East to carry the message of California to the people of the East who have not yet emancipated their public affairs as we have here.

PENNY PEACE

The part that the so-called great powers of Europe have played in the Near East for the last fifty years has been one humiliating to every standard of civilization except that of mere cowardly peace and conservation of banking interests. It is not to be disputed that peace is better than war under most circumstances. But the efforts of the great powers to preserve peace have not been at their own expense, but at the cost of the lives and self-respect of thousands of people who owed nothing to the powers and who asked nothing better than to risk their own lives and fortunes in an effort to drive the Turks from Europe.

Now, in the name of peace, the powers are endeavoring to bring pressure to bear upon the Christian states of the Near East to prevent their attacking the Sultan. They are afraid of the disturbance that war will cause to business. But they are more afraid still that a combination of the Balkans may be able to capture Constantinople and may even be able to coalesce into a new and greater nation, one that could overturn the balance of power, threaten the political prestige of Austria and Russia, interfere with British and German trade, put an end to the wardship that France has claimed over Christian affairs in the Near East and finally prevent Russia from ever getting that foothold on the Bosphorus that has been her ambition for centuries.

The only prospect of success for the Balkan combination at this time is the apparent failure of the concert of the great powers to harmonize at this time on any scheme for suppressing the enemies of Turkey.

PRESERVING STREETS

In pursuance to a decision of the Supreme Court of California declaring that a city has the right to pass regulations regarding the use of its streets by public service corporations to prevent the abuse of charter privileges, Los Angeles, Oakland and San Francisco and other municipalities have passed or are now preparing ordinances which fix the deposits that must be made by gas, water or other companies which tear up streets in order to lay pipes. The deposits are required to insure the restoration of the pavements to their original condition.

The need of such a provision has often been felt in this city in the past and it is very likely that such a deposit system would be a healthy addition to our code of ordinances.

AS TO POLL TAX

And all the arguments that are being made against the poll tax, and they are numerous and some of them at least very forceful, we believe that some recognition should be taken of the place that the poll tax has in taxation theory.

Whether or not taxes should be levied in proportion to the benefits derived by the taxed person is a question unanswered by tax theorists for the most part in the negative. But at least there is no denying that the imposition of the taxes upon the whole country is justified only on the ground that the whole country is benefited. Whether in any particular case, a particular citizen should be taxed in an exact proportion to the benefits he receives is another matter.

The other argument most frequently used is that taxation should be in proportion to ability to pay. Yet even this is not altogether a satisfactory method of determination and is modified in practice by other considerations. A third theory of taxation, one that is most primitive and yet one which runs through all taxing propositions today is that of collecting taxes purely with reference to ease of collection. This theory calls for as many diverse kinds of taxes as it is possible to devise, collecting from this man or interest in one way, from another in another way, each method solely with reference to simplicity and degree of non-resistance on the part of the taxed person.

As to these different theories of taxation—the poll tax is certainly justified on the benefit theory, in so far as it is levied in addition to the regular property tax. In general the theory of the property tax is that the greater a man's property, the greater the benefit he derives from the protection extended to property by the government. The state furnishes police protection against thieves, and affords other benefits to business, and for these the property owner and business man pays taxes with which to run the government.

But the government also extends benefits to each man, independent of the property he possesses. In preserving the civil order, the government protects not only property but also individual personal liberty. Is it too much to charge a poll tax as against such protection? The poll tax in this state is \$2 per male citizen less than the general tax levy on \$100 worth of property. Are not the benefits which any man gets from the government in his personal character worth more to him than the protection that he would receive 'on property worth \$100?

As to the second tax theory, that of ability to pay, is not the average citizen able to pay \$2 a year out of his personal earnings as well as is able to accumulate \$100 worth of property and pay \$2 or more tax upon it? Is not a man's own body, as a working asset, worth the paying of a tax of \$2 upon it?

It is on the third theory of taxation, ease of collection, that the greatest objection is usually made to the poll tax. It is pointed out that it is very difficult to collect, and often very expensive to do so. Unquestionably, this is a practically valid objection, but a reason that may lead to better enforcement of the law, rather than to a repeal of it. As a matter of fact, poll taxes are now collected and to abolish them would seriously diminish certain state revenues. Were the citizens of the state now positively to affirm the justice of the tax, a better spirit toward it would be engendered, which might lead to an easier enforcement of the law, rather than to a repeal of it.

As a matter of fact, poll taxes are now collected and to abolish them would seriously diminish certain state revenues. Were the citizens of the state now positively to affirm the justice of the tax, a better spirit toward it would be engendered, which might lead to an easier enforcement of the law, rather than to a repeal of it.

SAYS HE KNOWS OF
CAMPAIGN CONSPIRACY

Thomas W. Lawson, Frank Munsey and G. B. Cortelyou Before Committee

WASHINGTON, Oct. 17.—The "Wall street system" formed a deep laid plot to control the present presidential election, Thomas W. Lawson of Boston told the Senate campaign contributing committee today.

Lawson was careful to impress upon the committee that he knew only in a "general way" of an alleged colossal scheme to nominate and elect a candidate "satisfactory to the Wall street interests."

All of his testimony was of matters which he knew in the same "general way" and he became involved in a heated controversy with the committee in defining just what he meant by his phrase, with which he prefaced practically every statement he made.

The conspiracy of the Wall street interests of which Lawson knew in a general way included, he declared, the defeat of Colonel Roosevelt at the Republican national convention, the nomination of President Taft and the induction of Colonel Roosevelt into the campaign as the third party candidate to split the Republican party. All this without the knowledge of Colonel Roosevelt.

Then Lawson knew in a general way a mysterious fund of \$1,000,000 had been raised in Wall street to deadlock the Democratic convention at Baltimore, prevent the nomination of any of the candidates before the convention and to name a dark horse satisfactory to the "system." Who was to be elected?

"I communicated this information to Mr. Bryan at Chicago during the Republican convention," said Lawson, "and as a result Mr. Wilson was nominated and the scheme failed."

OPPOSES PUBLICITY.

Frank A. Munsey, who preceded Lawson, argued at length with the committee against the publicity of campaign contributions, declaring it was necessary that rich men contribute to political funds and that such publicity as the present investigation had enforced had "frozen up the pocket books" of the wealthy. He outlined his own expenditures in the Roosevelt pre-convention campaign fund, amounting to more than \$118,000 and told the committee that compared to the amount he was reported to have contributed the real figures made him "look like a piker." He estimated the total expenditure of the Roosevelt pre-convention campaign at \$574,000.

George B. Cortelyou, chairman of the Republican campaign committee in 1904, gave the committee his recollection of the so-called Standard Oil contribution of \$100,000, which John D. Archbold testified he gave to the Roosevelt fund that year. Cortelyou said that when President Roosevelt demanded that any Standard Oil money he received, he was told by Cornelius Bliss, treasurer of the committee, that a contribution had been received from the company. The witness said that he had a vague recollection that Bliss, treasurer of the committee, had no evidence for the defendant would be offered at the preliminary hearing, which has concerned the alleged relations of Eddie with Alice Phelps, a young married woman.

A motion to dismiss, it was said, would at once be offered by counsel for the defense, which, it was said, would attack the constitutionality of the juvenile law.

Cortelyou said he never discussed the financial conduct of the 1904 campaign with President Roosevelt.

IGNORANT OF CONTRIBUTIONS.

Cortelyou said he knew nothing of Morgan, Harriman, Standard Oil, Frick, New York Life, Mutual Life or

General Electric contributions to the fund until after the election.

Cortelyou said that he did not consider President Roosevelt's direction that no Standard Oil contribution be received had any relation to individuals connected with the company.

"I probably would not have accepted any directions as to personal contributions by any individuals," he said.

Cortelyou said he wrote the letter placed in the record inviting E. H. Harriman to become a member of an "auxiliary campaign" committee. He said that the letter had been written to about 100 Republicans and related to a "purely honorary" committee. Senator Payne wanted to know why the letter enjoined secrecy as "the committee was not to be made public" if it was an honorary committee. Cortelyou did not explain.

The committee sharply went after the story of a Wall street conspiracy this year and endeavored to pin Thomas W. Lawson down to a statement of his grounds for the recital. He said he had private means of information, many of them confidential, and finally informed the committee that when a bit of information became known to him he took particular pains to arrange matters so that he might not know the exact source of the information.

He said that in an effort to defeat the "system" plans, he had financed a \$100,000 independent advertising campaign in behalf of Colonel Roosevelt at the Republican national convention. All this without the knowledge of Colonel Roosevelt.

Lawson testified that he knew "in the same general way" of contributions amounting to from \$50,000 to \$700,000 to the fund of Alton B. Parker in 1904. These contributions, he said, came from the Standard Oil group. He said that his information on this point came partly from conversations with the late H. H. Rogers of the Standard Oil Company.

The "Wall street system" formed a deep laid plot to control the present presidential election, Thomas W. Lawson of Boston told the Senate campaign contributing committee today.

Lawson was careful to impress upon the committee that he knew only in a "general way" of an alleged colossal

scheme to nominate and elect a candidate "satisfactory to the Wall street interests."

All of his testimony was of matters which he knew in the same "general way" and he became involved in a heated controversy with the committee in defining just what he meant by his phrase, with which he prefaced practically every statement he made.

WAS NOT

Killed

AS STATED BY THE "PRESS."

Since returning from my summer vacation a number of people have accosted me on the street with such remarks as these, "I hear you were killed, and you buy a new machine to take the place of the one wrecked?" etc., etc. To save the time taken up by answering such questions, let me say that I have never as yet been in an auto wreck, and as I am very much alive as I write this article, it is sufficient proof that I have never been killed even once. I have never run into anyone with my auto, neither having any of my chumfins.

Charles Faris owned the first automobile in California and I had the second, and after twelve years of constant driving, traveling several hundred thousand miles in the fifteen different autos I have owned without mishap, I consider it a rather remarkable record.

Well, I'm back in Fresno (the greatest town in the state) again at the same old stand selling furniture, and while I may not be as funny as I used to be, yet I still have a little humor left with which I will endeavor to sell a little furniture now and then. Just remember that I carry the largest line of carpets and rugs shown in the San Joaquin Valley.

CONVENTION HALL**SIXTY MARRIAGE
LICENSES OUT THUS
FAR FOR THE MONTH**

**Mayor Is Doubtful Whether
Work Can Be Resumed
Short of One Month**

**Permits to Wed Granted to
Thirteen Couples in the
Last Two Days**

The current month is making an unexpected record for marriages, with sixty licenses issued for the fifteen business days to date. The activity in license applications has been especially noticeable in the last few days, with thirteen yesterday and the day before. Three couples were on hand yesterday even before the opening of the doors of the county clerk's office. The latest issued licenses are to the following named couples:

Charles Schmidt, aged 27, and Mary I. Morgan, aged 20, both of Fresno.

Eugene Nowak, aged 22, and Dot Decker, aged 22, both of Fresno.

R. E. Field, aged 24, and Anna Christopher, aged 25, both of Mendota.

Loe E. Nelson, aged 29, of Orosi, and Mabel E. Harvey, aged 22, of Tollhouse.

August Hobson, aged 18, and Marian Rider, aged 16, both of Fresno. J. Rider consenting to the daughter's marriage, and the parents of the groom giving like consent.

Watson Perry, aged 23, and May Work, aged 19, both of Dinuba.

Louis R. Crocker, aged 43, and Martin P. Bentley, aged 32, both of Alhambra in Los Angeles county.

George W. Fennell, aged 21, and Domingo Cabeza, aged 19, both of Fresno.

Action as regards time will regard to calling for bids on new work. Completion will depend on the settlement of this steel work controversy and the revised plans for the completed building by Architect Kirby. The controversy with Dyer Bros. is to be settled before the contracts are taken up, though there is strong belief that these other defects are not so much the result of bad work as to neglect and lack of protection of the uncovered roof structure.

LATE SHIPPERS ARE
GETTING GOOD PRICES

More Than 2,500 Cars of
Malagas Will Be Sent
Out This Year

RUIT SHIPMENTS.
Shipments reported 3,895
Shipments yesterday 55
Total to date 3,839

The market for Malagas, which for so long was wholly demoralized, has recuperated to some extent and late shippers are beginning to realize good prices. The grapes are still being shipped and the majority of them are arriving in good condition with the result that good prices are being paid, as green fruits are now scarce in the Fresno district this year.

The heavy movement of Malagas this year has surprised packers and growers alike. The shipments last year amounted to about 1,000 cars and few expected the total to exceed this mark this year by any great quantity, some venturing a guess that 1,500 cars would be shipped. When the recapitulation is made at the end of the season, it will probably be found that more than 2,500 cars of Malagas moved out of the Fresno district this year.

There has been some car shortage and slight damage resulting, and it is felt that the experience of this year, will make necessary much more rolling stock to handle the crop next year as now doubt is expressed but that under normal conditions it will be as large or larger than it was this year.

MANY MOURN LOSS OF PIONEER WOMAN

The loss of Mrs. Margaret A. Jones, whose death occurred in this city last Wednesday night, is mourned by hosts of friends in the valley who became acquainted with her during her forty-two years' residence in Fresno.

Mrs. Jones was born in North Carolina in 1857 and was 83 years and 5 days old at the time of her death. She came to Fresno County in 1871, settling near Centerville. In 1878 she removed to this city and for a number of years was proprietress of a hotel on J street near the present Grand Central.

She was the wife of Calvin Jones, who will be remembered by old settlers as the inventor of an automobile car, and was the mother of eleven children. She was for many years a member of the Methodist Episcopal church here and was a conscientious Christian.

California Oil News

DRILLERS RACE WITH
TWO WELLS IN MIDWAY

Both Start Sept. 29 and One
Is 1,050 and the Other Is
1,055 at Present Time

TAFT, Oct. 17.—As 1,050 feet, the May No. 5 well, on section 32-12-21, will be finished first on the No. 2 well of the Pacific Crude, on section 32-12-23, will be the first into the sand, a formation which is causing West Side oil men to focus their attention on the two holes.

Both were started on September 29th. Practically the same formation is to be gone through in the drilling of each. Yesterday the drillers on the May had five feet of the advantage over their rivals on the Pacific Crude. Both wells are being drilled with rotary tools under contract by the California Well Drilling Company. The May hole is down 1,050 feet and the Pacific Crude 1,050 feet.

**DEVELOPMENT NEWS
OF MIDWAY FIELD**

TAFT, Oct. 17.—The May No. 4 well on section 28, 31-23, promises to be brought in within another day, and every indication now shows that it will be a gusher. The second sand was entered Tuesday at a depth of 2,225 feet, a heavy gas pressure being encountered. The well was drilled with rotary tools by the California Well Drilling Company.

The four wells being drilled by contract for the General Petroleum Company are fast going down, good progress being made on all. On the Buena Vista Division on section 32, 31-23, the new well is down 2,150 feet. The new well on the Walker lease has reached a depth of 2,460 feet. A depth of 1,600 feet has been reached on the Midway lease on the No. 16 well. On the J. M. K. lease better known as the Amex Division the California Well Drilling Company is rigging up for a new well to be put down.

The 7 5/8-inch casing in the No. 20 well of the Section Twenty Five Oil Company, on section 32, 32-23, was shot off yesterday at a depth of 1,200 feet. The casing below will now be sidetracked and re-drilled started.

The No. 3 well of the California Counties Oil Company, formerly the La Bella Lease, on section 4, 22-22, has reached a depth of 1,000 feet. It is being drilled with a rotary disc bit and although hard formation has been struck for the past 300 feet, the new invention of Fellowes parties has shown excellent service.

J. T. Jergens put well, the No. 7 of the California Midway Oil Company, on section 32, 31-21, continues to give trouble to the driller. It is down 3,237 feet with the oil sand at about 3,315 feet. Two months ago it was to have been brought in, and many wagers were made as to what it would do, but it is still on the non-producing hat.

**DEMOCRATS SECURE
AN OUTSIDE SPEAKER**

Frank H. Gould to Make One
Address; Meeting in
West Park Tonight

The local Democratic county central committee has secured Frank H. Gould, a state Democratic speaker, to come to Fresno county and make one address in this campaign. Gould was to have spoken at Sanger on October 31, but inasmuch as the Republicans have taken that date it is probable that other arrangements will be made for him.

The Democrats will hold a campaign meeting at West Park tonight and have arranged for a meeting at Laton tomorrow night. James A. Burns spoke at a Democratic meeting in Madera last night.

The Democrats have meetings arranged for almost every night next week and as the Republicans have also arranged meetings for almost every night next week, it is believed that the voters of the county will be given a great deal of opportunity to hear of campaign issues.

**SEEK YOUNG MAN;
MOTHER IS DYING**

The mother of William Kohoe, a young man supposed to be working in a packing house in this city, is dying in San Francisco, and the police of Fresno have been asked to notify her son. The sad message was flashed to police headquarters last evening but up to an early hour this morning the young man had not been located. The telegram received here reads:

"Find young man, aged 21, red hair, name William Kohoe. Works in Fresno packing house. Mother is dying in San Francisco."

T. J. HALL

**PACKERS CONTINUE
TO REJECT RAISINS**

Practically No Change in

Situation; Offers of

2 1/4 Reported

There is practically no change in the raisin situation from what has been existing for the past few weeks. In some instances it is reported that 2 1/4 cents has been paid for good crops, but the general price seems to be about 2 cents.

A large number of packers are rejecting goods on account of quality and buying for other firms, particularly Rosenberg Bros. & Company, are buying on these rejected goods regularly, at lower prices. It is claimed that growers are preparing to bring suit against the packers for rejecting and buyers for the firms that are taking in rejected goods are threatening that they hope to make other firms forced to pay and are willing to purchase the goods at lower prices, in order to aid the growers in bringing suit.

By far the bulk of the 1912 raisin crop, as far as can be seen now, is in crown goods. This is the statement of packers who are handling the goods in large quantities and of raisin people who have no direct interest in the buying or bearing of the game.

It is asserted that in the majority of cases the rejections have been made because the raisins were below grade, in point of size, and in many instances because of conditions. Buyers who are taking in these rejected goods declare that they are showing up well in quality.

UNION WILL DEVELOP

LOST HILLS HOLDINGS

TO EXPERIMENT WITH

BIG DYNAMITE CHARGE

Both Start Sept. 29 and One

Is 1,050 and the Other Is

1,055 at Present Time

Rotary Outfit Is Taken to Dry Hole in Good Territory

Fields to Start New

Well; Oil Notes

TAFT, Oct. 17.—Mr. DeMoss, one

of the Union's rotary driller's from

Tulsa, has been sent to the Lost Hills

by his company to start another hole

The balance of the crew were taken

from the Union's Lakeview property.

Along with the crew was shipped a

team to start out to be used on

the Union's vast holdings in the Lost

Hills.

The Standard's No. 8 well, on 4-27-

21, is showing a tremendous gush

and they have finished pumping

1,000 barrels of mud into the hole

that they might be able to complete

Wells No. 5 and No. 7, on the same

section, are also showing up an even

ing of sand and formation as do the

logs of the finished wells show. They

promise to be big wells.

The American Petroleum well, that

has been shut down awaiting pipe, has

resumed operations, and is starting

from 2,650 feet back to go into the

sand with the new string. This

well promises to be a great producer

as they have finished or will finish

with a good-sized string of pipe. On

completion of this well the American

will take no time in getting down the

different wells on this section, 34-

21.

**MAP FOR WEST SIDE
OIL FIELD PREPARED**

Shows Locations and Data

Pertaining to Things

Wanted by Oil Men

BAKERSFIELD, Oct. 17.—The latest thing in maps of the Lost Hills and Midway oil fields has just been put out by A. T. Parsons, the local engineer. It is a handsome affair, drawn on a generous scale, and shows all wagon roads, railroads, pipe lines, power lines and supervisory districts in the territory covered, which includes the Midway field in the southwest, Lost Hills in the northwest, Devil's Hole and Jasline in the northeast, and Oil Junction in the northwest.

The map shows the ownerships, and is quite as valuable to those interested in the new colonizing and forming districts of northern Kern county as it is to the oil men. Wasco colony is in the center of the map.

**LAND COMPANY TO
HAVE MODEL FARM
IN MADERA COUNTY**

Sharon Estate of 22,000

Acres to Be Put on

Market Soon

Byron Erkenbrecher, president of

the Los Angeles Land Syndicate,

which recently purchased the Sharon

estate at 22,000 acres of unimproved

land in Madera county, passed through

Fresno yesterday enroute to his head-

quarters in Los Angeles. Erkenbrecher

has been inspecting the property

and stated that he is well pleased

with it. Work will start shortly on

improving the tract, which is to be cut

up into small farms and sold in the

Middle West. One of the features will

be a model farm of twenty acres with

modern residence, barn and other up-to-date features. The land is adaptable to vines and trees. Grading work will

begin early next month, and wide

avenues are to be put through the

tract. The 22,000 acres were former-

ly owned by the heirs of Senator

Sharon of Nevada, who died about

ten years ago.

STATE COMMISSIONER ENDORSES MARCHBANK

EXPERIMENT PHASES OF FARM KNOWLEDGE IS LECTURE THEME

Head of Horticultural Department Sends Letter to Assembly Aspirant

MADERA, Oct. 17.—George Marchbank, Progressive Republican candidate for the Assembly from the Merced-Madera district, has received a letter from State Horticultural Commissioner A. J. Cook, in which his candidacy is given endorsement, from the fact that Mr. Marchbank is the only county commissioner in the state who is a candidate and pointing out that men of his qualifications are needed in the legislature to look after the interests of the fruit growers. The letter is made public and is as follows:

"Sacramento, Cal., Oct. 14, 1912.
Mr. George Marchbank,
County Horticultural Commissioner,
Madera, Cal.

"My Dear Sir: I have learned that you are a candidate for the position of state legislator, and I am very glad to hear it; I am also pleased to learn that there is a strong probability that you will succeed. I wish to state that this is peculiarly important, as I doubt if any other county commissioner will be in that body, and your knowledge of the needs of horticulture from actual work in the field will be of very great service in the coming session of the legislature. It is very likely that measures will be presented for action that will make your knowledge and experience of great benefit. I wish you would represent this on your behalf to the horticulturists and fruit growers of your section, and state to them the importance of your election, in view of your previous experience and your knowledge."

"This is not politics at all; it is sheer good sense. We need more fruit growers, horticulturists, practical men, in our legislature; the professional men have too long had control."

"Wishing you success, I am,

"Very truly,
A. J. COOK,
State Commissioner of Horticulture."

M'CORMICK IS GIVEN BANQUET BY SELMANS

Talks Are Made by Railroad Officials and Citizens in Get-Together Feast

SELMA, Oct. 17.—D. O. McCormick, vice president of the Southern Pacific and in charge of the traffic department of the railroad company, paid this city a visit today, and was this afternoon entertained by a delegation from the Selma Chamber of Commerce, and tendered a banquet by the organization at Hotel Van Horn this evening.

Mr. McCormick's visit to Selma is the result of very urgent invitations by the Selma merchants to visit Selma personally in order that he might be more fully acquainted with the needs of better facilities for handling the railroad business at this point. The rapid development of the surrounding country, together with the establishment of many fruit packing establishments and two big canneries, and the thick settlement of the country and city, has developed both the freight and passenger business until the present facilities are inadequate for the expeditious handling of the railroad business.

Mr. McCormick arrived from the south at 4 o'clock this afternoon in his special car, "Sunset," which was attached to the regular train No. 51. He was accompanied by J. H. Dadds, assistant division superintendent, with headquarters at Bakersfield; C. H. Jasper, district freight and passenger agent, of Fresno, and G. H. Cornell, who is Mr. McCormick's secretary.

The railroad officials were met at the depot by delegation from the Selma Chamber of Commerce, who took Mr. McCormick, Jasper, and Cornell for an automobile trip in which they visited the different fruit establishments of the city, and viewed the public school buildings, business and residence sections, and then took a little spin into the surrounding country.

There were 50 guests at the banquet given this evening, which was in charge of the members of the Ladies Improvement Club, and was given at the hotel. An address of welcome was given by Mayor H. J. Lehman, which was responded to by E. O. McCormick, who spoke of his surprise at the development of Selma and the surrounding country. Addresses were also made by C. H. Jasper, G. H. Cornell, W. C. Barnes of Sacramento, W. C. Freeland, C. P. Todd, H. Elliott, W. E. Street, W. H. Shaffer and Frank W. Hetherington, all of whom alluded upon the importance and growth of Selma as a city and as a shipping point. The latter speaker told of the doubling of the business of the packing plant in the last year and that it will double again in the next year. The meeting was a get-together meeting for the mutual benefit of the railroads and the Selma shippers, and will result in great good to the city. Incidentally, the matter of the needs of the city for a new depot were mentioned by John C. Hordern. The closing address was made by J. J. Vunderburg. A vote of thanks was tendered Mr. McCormick for his visit to Selma, and he proposed a vote of thanks to the ladies for the beautiful flowers which decorated the banquet table, and these were all sent to McCormick's car and taken away with him.

SECRETARY FISHER WILL VISIT MADERA

Party of Eighteen Leaves Yosemite Valley This Morning and Arrives in That City Saturday Night

MADERA, Oct. 17.—Secretary of the Interior Walter Fisher, accompanied by Mrs. Fisher and sixteen others, will make an auto trip from the Yosemite Valley, leaving Glacier Point tomorrow morning. They are due in Madera at 6 p.m. Saturday. The visit is arranged by R. L. Hergrove and G. W. Moreland. The party will remain till the 3:30 train of the Southern Pacific and will leave for Los Angeles.

REGISTRATION IS 5,740 IN KINGS

HANFORD, Oct. 17.—Definite figures on the registration of Kings county, given out today by County Clerk Francis Cunningham show that the registration is 5,740, of which number 1,600 have registered since the May primaries.

TO START WORK ON VALLEY GAS PLANT

PORTERVILLE, Oct. 17.—Chas. S. Forney, president of the Central California Gas Company, head offices of which are in this city, arrived today from San Francisco where he has been in conference with the bankers who are financing the proposition. He stated that orders have been placed on the East for a train load—forty cars—of pipe which is to be used in extension of the system through Visalia, Tulare, Exeter, Lemoore, Stratham and Porterville, and work will be started on this system of waterworks in soon this city and the factory on the south side will be changed and enlarged to conform to the new arrangements.

ACTIVE CAMPAIGN FOR M'KITTRICK PLANNED

Meeting Called for This Evening to Arrange Speaking Dates

HANFORD, Oct. 17.—An experimental phase of agricultural education was the theme of a lecture delivered to the members of the Kings County Agricultural Association this afternoon in the high school building by Prof. L. P. Grifin of the Agricultural Education Department of the University of California. His talk was along the lines of interesting boys and girls in the promotion of experimental work, thus helping themselves for taking up the study of agriculture in the high schools when they reach that stage of their school career.

Valley Orchardists Do Not Take to Plan of Uniting Tonnage

PORTERVILLE, Oct. 17.—In contrast with the marked interest which is being taken in the proposal in some portions of the Southern California orchard districts, the growers of the Tulare county orchards do not take seriously the plan now being adopted in Southern California to unite the tonnage from all portions of the state under a proposal to hereafter sell all oranges, lemons, grapefruit and short-eating citrus chief argument in favor of the proposal is that the Exchange has put out of business hundreds of gleaning who would naturally be on the road digging up orders for fruit. It is claimed that if the California system were inaugurated, buyers would flock to this city and the growers would reap the benefit of competitive purchasing.

In this district the older orchardists remember the days when competitive buying, so-called, was the rule, and they also remember in a matter of fact that the buyers got together a few days prior to the packing season and set an arbitrary price which their sellers could take or leave as they chose. As a matter of fact, the "sell at home" campaign is being exploited for the purpose of boosting a privately conducted auction agency in Southern California, and at the present time the leading independents, as well as the Exchange, sell their fruit for cash, on track, as largely as possible.

WIFE IS DENIED INSURANCE MONEY

Judge Conley Gives Defendant Judgment in Case Where Wife Was Shot

DINUBA, Oct. 17.—Judge Conley ordered judgment for the defendant in the case of Agnes M. Price vs. Continental Life Insurance Company which had been under investigation as yet submitted. Mrs. Price sued to recover the life of her husband, who was shot by Frank Kates.

CREAMERYMEN GATHER IN STATE CONVENTION

Turlock Extends Cordial Welcome; Prominent Speakers Attend

TURLOCK, Oct. 17.—Extensive preparations have been made for the annual convention of the California Creamery Operators' Association during their convention in this city today and tomorrow. The 300 or more delegates reaching Turlock today found themselves in the midst of the best welcome that they have ever received since organization.

They also found the city decorated with bunting, streamers and flags galore, as every business man in Turlock is trying to outdo his neighbor in the matter of decorations. President A. P. Ferguson of the association, a resident of this city, and manager of the Turlock creamery, is one of the hard-working workers in the efforts of Turlock to keep up her reputation as one of the pretties of entertainers among the cities in the valley and to him is due a large amount of credit for the excellent way in which things have been handled.

The program for the two days has also been completed and includes addresses by prominent men, among them being Prof. Roy Anderson, of the University of California; Warren B. Thurston of the U. S. Department of Agriculture; Hon. Peter P. Shields, of Sacramento; E. A. Starkweather, state dairy inspector; W. H. Saylor, editor of the Pacific Dairy Review; J. H. Murphy, of Fresno; D. B. Stowe, of Stockton, and S. A. W. Carter, of Los Angeles.

There will be butter contests, contests of various kinds, and an auto race over the great Turlock Irrigation District, as a grand finale on Saturday night, the local Women's Improvement Club will tender the visitors a sumptuous banquet, under the auspices of the Turlock Board of Trade. It is estimated that there will be at least 250 guests seated at the banquet.

ATTACKS HIS WIFE; IS GIVEN BIG FINE ELKS IN COALINGA GIVE BIG BANQUET

COALINGA, Oct. 17.—R. P. Elliott was today fined \$150 for disturbing a restaurant to their home by robbing it of its food in the restaurant and his wife a waitress. The fine was suspended on condition that he leave the place.

The program for the two days has also been completed and includes ad-

dresses by prominent men, among them being Prof. Roy Anderson, of the University of California; Warren B. Thurston of the U. S. Department of Agriculture; Hon. Peter P. Shields, of Sacramento; E. A. Starkweather, state dairy inspector; W. H. Saylor, editor of the Pacific Dairy Review; J. H. Murphy, of Fresno; D. B. Stowe, of Stockton, and S. A. W. Carter, of Los Angeles.

The party will remain till the 3:30 train of the Southern Pacific and will leave for Los Angeles.

Rev. Haubenschild Is Holding Revival Meetings in Visalia

Meeting Called for This Evening to Arrange Speaking Dates

MCKITTRICK, October 17.—A mass meeting of the supporters of House Bill 100, to prohibit night to make arrangements for an active campaign in the interests of the ticket in this city, and the other and Asphaltic products. The Republican vote in the city and two precincts is quite large, and every effort is to be made to insure a strong representation at the meeting. Pulling places are to be opened at the city hall in McKittrick at Reward for the Ong preachers, and in McKittrick stable for the Asphaltic products. The registration in the city and Ong and the Asphaltic products is usually in the neighborhood of 600, and it is estimated that in the election this year more than three-fourths will be cast. The Republican registration this year is much larger than that of four years ago.

VALLEY ORCHARDISTS DO NOT TAKE TO PLAN OF UNITING TONNAGE

PORTERVILLE, Oct. 17.—In contrast with the marked interest which is being taken in the proposal in some portions of the Southern California orchard districts, the growers of the Tulare county orchards do not take seriously the plan now being adopted in Southern California to unite the tonnage from all portions of the state under a proposal to hereafter sell all oranges, lemons, grapefruit and short-eating citrus chief argument in favor of the proposal is that the Exchange has put out of business hundreds of gleaning who would naturally be on the road digging up orders for fruit. Judge Conley Gives Defendant Judgment in Case Where Wife Was Shot

DINUBA, Oct. 17.—Judge Conley ordered judgment for the defendant in the case of Agnes M. Price vs. Continental Life Insurance Company which had been under investigation as yet submitted. Mrs. Price sued to recover the life of her husband, who was shot by Frank Kates.

EXETER NEWS NOTES

EXETER, Oct. 17.—Robert Harding, of Visalia, was a business visitor to Exeter Tuesday.

A. H. Dodge of Exeter is spending a few days at Loydton, Calif., looking after milling interests in that vicinity.

Mrs. Macdonald Twitcham and Mrs. John Pritchard are spending the month at Flagstaff, Ariz., as the guests of Mrs. George Hinde.

Mr. and Mrs. Elmer Pritchard of Fresno, and Mr. and Mrs. Clarence E. Pritchard of Exeter, are spending the week at the new high school where carpenters are now engaged in the erection of a neat cottage.

The new home of Percy Rose, in the eastern part of town, built in bungalow style, is nearing completion.

E. Barla started Wednesday morning for an extended visit with Eastern relatives. He will stop for a few days in Utah, and around Salt Lake, and then continue to his old home in New York state.

H. D. Barton of Oakland brought a herd of cattle into Dinuba Thursday morning from the range of Bear River, which were delivered to a local buyer.

Frank Mizell returned this week from Los Angeles, where he was sent as a delegate to the Masonic convention.

Mr. and Mrs. E. H. Niles have returned from Los Angeles, where they have been taking in the Masonic festivities during the past week.

Mr. Chay Huchson of San Francisco is visiting with friends and relatives in and around Exeter.

They also found the city decorated with bunting, streamers and flags galore, as every business man in Turlock is trying to outdo his neighbor in the matter of decorations. President A. P. Ferguson of the association, a resident of this city, and manager of the Turlock creamery, is one of the hard-working workers in the efforts of Turlock to keep up her reputation as one of the pretties of entertainers among the cities in the valley and to him is due a large amount of credit for the excellent way in which things have been handled.

MANAGERS McGRAW OF THE GIANTS, AND STAHL OF THE RED SOX,
ARE SNAPPED WHILE TALKING THINGS OVER WITH THE UMPIRES

Left to right; O'Loughlin, Klem, Evans, Reigler, Stahl, McGraw.

Managers McGraw and Stahl, of the Giants and Red Sox, respectively, are here seen conferring with the umpires who are umpiring the world's series. Umpires Reigler and Klem are with the National league; Evans and O'Loughlin, the American. The picture was taken just before one of the big championship games.

WHITE SOX TAKE FANNING HIT HARD GAME FROM CUBS BY "OAK" PLAYERS

PACIFIC COAST LEAGUE. WON, LOST, PCT.

	WON	LOST	PCT.
Oakland	113	75	.589
Vernon	100	90	.551
Los Angeles	107	85	.557
Portland	81	93	.466
San Francisco	85	103	.438
Sacramento	67	118	.362

OAKLAND, Oct. 17.—Landing on Fanning for three runs and three hits in the seventh, Oakland defeated San Francisco, 5 to 0 today. San Francisco gathered two runs in the seventh and made a gallant attempt to tie the score in the ninth, registering four hits. Fanning allowed five runs and seven hits in seven innings and was replaced by Baker who blanked Oakland in the eighth. Three errors were charged against Oakland.

Riehl succeeded Cheney, but was removed after pitching to three batters, and Lavender was put in for the Cubs. Two home runs, by Collins and Weaver, with Burton's double in between, put the American Leaguers in front in the sixth.

Cloud battling for Cheney, was up to a pitched ball in the Cubs' eighth and went to second on Sheppard's out, either tripped, scoring Gond and mounted himself on Zimmerman's double.

Riehl succeeded Cheney, but was removed after pitching to three batters, and Lavender was put in for the Cubs.

Mattich's triple, with the bases full, put the Sox ahead once more in the ninth. Schalk had dropped a Texas leaguer in center, and Easterly hitting for Lane, walked Johnson running for him. Both sacrificed, Riehl to Evers. Lerd was purposely walked, filling the bases. Mattich's triple scored Schalk, Johnson and Lard. Lard was out, Archer to Sader, Mattich to scoring. Riehl beat out a hit to Tinker. Zeder flied to Schulte.

The official attendance was 11,517, and the total receipts were \$13,135.

The series now stands three games apiece, and tomorrow's winner will decide the title and big end of the gate receipts. Walsh pitched the ninth and shut out the Nationals.

Nationals 5 6 6

Americans 8 13 9

Batteries—Cheney, Riehl, Lavender and Archer; Lange, Walsh and Schalk.

COLISEUMS WILL PLAY WITH KINGSBURG SUNDAY

The Coliseums will cross bats with the Kingsburg team at Recreation Park Sunday afternoon at 2:30. The first game that the two teams played in the present series was in the fall at the end of the game, the score standing ten up and ten Sunday at Kingsburg the Speed Boys came out on the long end of the score, defeating Sam's players 6 to 2. Hot Wagner says that his team will win this game, as he will not be strongest team into the field that he has had during the present season. Wagner, who was missing in the last game, will be either on tired or short and should materially to the strength of the team, as there has been a weakness at that point during the last two games. Lefty Lewis will probably pitch and should be in better form for this game than he was in the last.

The Kingsburg team will have a strong lineup and prospects are fine for a good game. Peterson on short plays well and if his work is anything like that of the last game he played it would pay the fans to go out just to get a glimpse of the boy who certainly has mind on his feet. The excesses of the scores in the two games that have been played show that the teams are well matched and it is probable that Sam's team will be an even stronger. The fans are warming up to the contest and a large crowd is expected to be on hand to root for the coliseums. The Kingsburg team will be accompanied by a crowd of fans who will yell hard for the Speed Boys.

CATCHER BANTA MARRIES
RICH WIDOW IN NORTH

200 DUCKS ARE BAGGED
BY 8 MEN IN HALF HOUR

W. H. Banta, well known at Fresno, Newman and other Valley points, and Mrs. Banta, who is a former catcher of merit, has become a benefactress. He was married to Mrs. Eleanor Blumby, at Napa, a few days ago.

Yesterday the Emersons defeated the Hawthornes at playground baseball 6 to 5. The feature of the game was a home run by Welsh.

The guitars of Claude Macon of Palo Alto, four Fresno sportsmen participated in the biggest duck shoot of the season yesterday morning. With four Palo Alto sportsmen, including the host, the Fresnoites used their scatter guns to advantage on the banks of the San Joaquin river and the eight men succeeded in bagging 200 big birds in a half hour. Of this number, 120 were Sprigs and one was a Mallard, all big birds.

Those from Fresno were Bert Maul, Joe Blanford, Charley Deury and Bob Lamarkworth. Every man in the party grabbed the limit in a few minutes and the returning sportsmen report the big birds plentiful on the West Side.

The return trip from here to Palo Alto took two hours to Joe Blanford's big

boat, which was allowed, and Ancestors was placed second. Results:

TAPLIN DISQUALIFIED
FOR FOUL WITH MOUNT

SALT LAKE, Oct. 17.—Jockey Eddie Taplin, who was the premier rider on the intermountain circuit previous to his suspension, was seen in the saddle yesterday. He had the mount on Ancestors and was given an ovation on his return to the saddle. Unfortunately his mount was disqualified after winning. While the foul was not a palpable one, the judges made the ruling, which was well received by the public.

Ancestors opened up quite a lead on his opponents in the early part of the race, and when straightened away in the stretch for the finish home, the colt was in the middle of the track. John Hure began to move up fast on him and Taplin drew his whip. Ancestors gave under it, and before he could be straightened away here over to the rail, Taplin drew his whip. Ancestors gave under it, and before he could be straightened away here over to the rail, Taplin drew his whip. The former won the first heat, but Director Jay came back strong in the second and third heats and proved an easy winner.

The game is scheduled for 2:45 sharp tomorrow afternoon, and there will probably be a large crowd on hand at Zapp's Park to see the game.

Mack's Mack won the first two heats, in which Peter McCormick finished sixth. In the third heat Peter the Great got off well and won easily as he did in the next two heats, thereby winning the race.

The 2:45 class trotting, purse \$1000: Peter McCormick first, Mack's Mack second; Dr. Wilkes third. Best time, 2:09 3-4.

The champion stallion stake, pacing division, \$2200—Director Juy, (Murphy), won; Ward Dillon, second. Best time, 2:08 3-4. Only two starters.

2:10 class pacing, purse \$1000: Cincinnati won; Fern Hal second; Prince K., third. Best time, 2:08 1-2.

The Kentucky three-year-old trot, value \$2000: Princess Todd won; Samson Mud second; Pamela Walls third. Best time, 2:11.

As the guitars of Claude Macon of Palo Alto, four Fresno sportsmen participated in the biggest duck shoot of the season yesterday morning. With four Palo Alto sportsmen, including the host, the Fresnoites used their scatter guns to advantage on the banks of the San Joaquin river and the eight men succeeded in bagging 200 big birds in a half hour. OUR FASHION MAGAZINE

Clothes that Smell of Roses and Violets

BEAUTIFUL HANDS

BY LUCILLE DAUDET.

IMMACULATE cleanliness is the first requisite for the looks of any hand, and this can only be obtained by warm water, a good bland soap and a nail brush.

But don't buy the hard wooden brushes which are sometimes used for this purpose, for these injure the cuticle under and around the nails and coarsen the texture of the skin. The proper nail brush is invariably of bristles and those who can afford it should not begrudge a little extra expenditure here, for a good brush lasts longer than a poor one and brings always the best results in hand beautifying. After being used it should be rinsed of the soap, dried in a rack and occasionally sunned, to rid it of any sour smell.

Not even for the shortest moment during the day should cold water be used on the hands, for this tickles and promises only serves to grind the soil into the skin and so ruin its texture, and those who indulge continually in these cold water dabblings soon find the hands rough, coarse and red, or with a grimed kitchen look, which is even worse, for, though it is no dishonor to do kitchen work, it is great misfortune in these days, when hands can be so well cared for, to have them give this impression.

Rainwater, warm enough for comfort, a teaspoonful of toilet ammonia, or the same quantity of powdered borax in ordinary water, with castile soap, are the proper medium for everyday hand-washing. But if the hands show at any time a bad graining from household work or carelessness in previous baths they should be well rubbed first with almond oil or vaseline and then smeared well with green soap and soaked for some minutes before the brush is used for the last cleaning. The ends of the nails may be vigorously scrubbed with this, as well as the knuckles and wrists, and if some degree of black still remains about the nails it should be removed with an orange stick cut to a fine point.

All the wiping of the hands after the warm soap and water wash must be very complete, or else the dampness will cause chap and if this scuffing of the cuticle is continually repeated it takes a long time to get the skin back to a soft, fine-grained look.

In wiping the fingers, do it with the hands held straight up and take one finger at a time, going downward with one end of a soft old towel. Do the other hand in the same way, and then while both are still to some extent warm and moist from the bath, pour a few drops of glycerin and rosewater in the palms, rub them together and massage it well into the skin. Sometimes a dash of violet talcum or cornstarch applied when the glycerin is half rubbed in has a whitening effect. Where the glycerin is biting, pure strained honey may be used in its place, for this is extremely healing, softening and whitening.

Where the hands are sensitive to much washing, they may be cleansed of small soils during the day by being rubbed with olive oil and then thoroughly wiped on a coarse towel; while the houseworker who wishes to avoid the railroads places which come from sweeping and other hard work should also grease her hands and powder them well with talcum before putting on her working gloves.

Hands that object to all soaps and frequently to oil in the pure state take kindly to saponaceous or detergent powders. An excellent one for whitening, softening and cleansing is made as follows:

Blanched almonds (powdered), 8 ounces; cuttlefish bone (powdered), 4 ounces; white castile soap (powdered), 4 ounces; orris root (powdered), 2 ounces; oil of cloves, 1/2 dram; oil of lavender, 1 dram.

Mix the orris root with the almonds, then add the scented oils, stirring in gradually; lastly, put in the cuttlefish bone and powdered soap. A little of this is put in the hands, moistened and then used as a soap.

As a preparation for manicuring the nails, the fingers should be held in warm, soapy water for 10 minutes, the water having been treated to 10 drops of tincture of benzoin or to a little aromatic vinegar. Either of these, together with the warm water, moistens the nails so that they can be cut or filed without breaking.

BURNING THE PAPER TO SCENT THE CLOTHES.

NEW BLOUSE

Seldom is it given to women off the stage to indulge so extravagantly in extreme fashions or to venture so grandly into the glory of king's colors and the splendor of royal garniture. The scenes this season to the forward side of the footlights vie in brilliancy and daring with any that have ever reflected the brilliant lights of the metropolitan stage.

Theater blouses alone present infinite opportunities for encouraging primitive ideas of color schemes, which are admittedly refreshing after seasons of rather monotonous indescribable shades. Blouse materials in themselves are such a marvelous medley of textures—so mystical in their conceptions—that one reasonably expects them to elude the needle entirely. But by virtue of an equally elusive art, we find them developed into innumerable styles delightfully wearable.

The graceful flow of the Charlotte Corday blouse is particularly appealing. Nearly every figure is susceptible to its generous surplice front draped skillfully beneath the arms toward the back, where its voluminous folds are recessed, brought around toward the front and knotted at the left side, with bowing ends in an oblong bow extending to the knee.

As a preparation for manicuring the nails, the fingers should be held in warm, soapy water for 10 minutes, the water having been treated to 10 drops of tincture of benzoin or to a little aromatic vinegar. Either of these, together with the warm water, moistens the nails so that they can be cut or filed without breaking.

FAT removed from the shirrings and gathers—belts and buttons—of seasons past, is the fluffy array of dainty garments designated lingerie underwear. In the very elaborate pieces one looks in vain for anything more substantial than a bit of lace, or batiste medallion, on which to place responsibility for wear. The favored garment is the combination of corset cover and drawers, which adds so materially in dispensing with all undesirable fullness about the waist and hips. Many are made in princess style, with lengthwise trimmings of insertions to accentuate the straight line effect.

The drawers are wide—very wide—and slashed almost to the belt line on either side, with generous bows of ribbon forming junctures at attractive intervals. Indeed, some of these garments are made almost entirely of lace, embroideries and ribbons, simulating to a marked degree the fluffy batiste skirt.

The particular model which receives from all enthusiastic admiration and is eagerly sought by the prospective bride. It is made of a fine quality batiste—straight and narrow—with an 8-inch flounce of Val lace overlaid with Val lace points and headed by a 2-inch binding ribbon-drawn.

WEATHER BUREAU**
WILLIS L. MOORE, Chief.

EXPLANATORY NOTES.

Observations taken at 8 p.m., 15th meridian time. Air pressure reduced to sea level. Isobars (continuous lines) pass through points of equal temperature; drawn only for sea level, freezing, 32° and 60°. Open circle = partly cloudy; solid circle = rain; circle with cross = snow; question mark = report missing. Arrows by the wind. First figure, mean temperature past 12 hours; second, precipitation of .01 inch or more for past 24 hours; third, maximum wind velocity.

SAN FRANCISCO, Oct. 17.—Foremost inland over British Columbia and at least across the Canadian border. We met the day exceeding 17 is central over Manitoba but it covers all sections between the Rocky mountains and the great lakes, having caused some rain in Oregon and Washington last night. With the sharp temperature fall at the end of the storm precipitation has set in both in Montana, Idaho, as reported from the upper and lower Mississippi valleys but the weather has continued fair and the weather has continued fair and pleasant elsewhere.

The weather is fully throughout California with slightly lower temperatures in coastal and southern sections and much lower pressure. The barometer has risen considerably on the north Pacific coast and generally fair weather is indicated for Fresno and vicinity on Friday.

GENERAL CONDITIONS. During Wednesday night a disturbance of considerable intensity moved rapidly westward over British Columbia and it has crossed 100° 45' W. Oregon and Washington 45° 45' E. Barometer 30.06 29.87 Temperature 51 N.W. Wind direction N.E. N.W. Wind velocity 3 Wind, per cent 10 Humidity 40% overcast average daily high temp 75 outside average daily low temp 51 highest this month for 25 years 81 Highest Thursday 81 Lowest Thursday 50 Local forecast: Continued fair and moderately warm weather Friday.

REPUBLICANS TO HOLD BIG RALLY AT BARTON THEATER TONIGHT

Charles S. Wheeler, one of the most brilliant attorneys in the state of California, head of the Republican electoral ticket in California and one of the two California delegates thrown out of the national convention in Chicago last June, will address the voters of Fresno at the Barton opera house tonight. This meeting will mark the formal opening of the Roosevelt-Johnson campaign in Fresno county.

W. A. Sutherland, Republican nominee for the assembly from the 51st district, will also speak tonight in behalf of his candidacy. Sutherland is a candidate for speaker of the assembly, and today is the strongest candidate of the three in the field for this position.

Arrangements for this meeting have been completed by the Republican county central committee, and it is expected that there will be an unusually large attendance. A band will be in attendance.

Charles S. Wheeler delivered the seconding speech at the Progressive convention in Chicago last August, following the nomination of Hiram W. Johnson for vice-president and all who heard it, pronounced it the most brilliant speech delivered in any of the three big conventions.

The meeting at the Barton will not be the only Republican meeting tonight, for at Barstow Hall, H. E. Barbour and W. F. Chandler, Republican nominee for the assembly from the 50th district, will speak.

Tomorrow night, W. F. Chandler and Chester H. Rowell will speak at Rolinda and L. B. Carey will address the voters of the Riverside district at the Canal school.

SANTA FE ORDERS 5,000 CARS FOR USE IN WESTERN STATES

Is Largest Single Order by Railroad Company in Recent Years—1,000 Steel-Frame Refrigerator Cars Coming From Factory for California Growers

In an effort to relieve the shortage in California and other western states, the Santa Fe has ordered 5,000 cars from an eastern factory. The cars are being delivered at the rate of 150 a day and it is believed the new supply will be sufficient to meet the demand. The order is one of the largest made by a railroad company in recent years and is divided as follows:

\$200 steel-frame box cars, 35 feet in length.

500 steel-frame automobile and furniture cars, 50 feet in length.

1,000 refrigerator cars, special construction, with steel frames and standard size and ventilation system.

100 oil tank cars.

100 steel-frame flat cars, 44 feet in length.

Officials of the Santa Fe stated yesterday that the delivery of cars from the factory in the East began October 11 and many of the new cars are now enroute to California points loaded with merchandise. At the rate of 150 a day it is figured that all of the 5,000 cars will be on the Santa Fe rails by November 16, allowing 35 days for the work.

The supply of refrigerator cars will

come direct to California empty but ready for fruit loading. The 500 auto and furniture cars will be sent to the factories in the Middle West for loading. Most of these will go to the auto factories at Detroit, St. Louis, Indianapolis and Chicago and a big part will come to California loaded. These are to go buck filled with coast products. The large auto and furniture plants are crying for new cars, according to Santa Fe officials.

The 500 box cars will be pressed into service at once and most of them will find their way to California to relieve the shortage. Of the total number, there are 4,700 cars in which California growers are vitally interested and the Santa Fe's big order will affect green fruit shippers as well as the dried fruit men. It is stated that the greater part of the new cars will be pressed into service on the company's fast freight trains now running between California points and Chicago.

In this connection, the local office of the Santa Fe has received a half dozen letters from valley shippers of green fruit complimenting the company on its splendid service between Fresno and other valley cities and San Francisco. Several hundred carloads of green fruit have been shipped from the valley over the Santa Fe this season to the canneries about the bay.

STUDENTS OF EMERSON SCHOOL DISMISSED TO VISIT THE "MOVIES"

Owing to the instructive value of the film showing Lincoln's Gettysburg address which was displayed at a local moving-picture theater for the last three days, the sixth, seventh and eighth grades of the Emerson school were dismissed at 10 o'clock yesterday morning by Principal A. P. Balch for the purpose of viewing this particular picture. The film portrayed the famous address of Lincoln at Gettysburg, illustrating each phrase with a representation of an appropriate scene. Lincoln was characterized by a noted

The children especially enjoyed the re-constructed scenes of the battle of Gettysburg and other historic views as they are studying this phase of American history at this time.

CARTWRIGHT TO GIVE UP HIS LAW PRACTICE

Will Devote Himself Wholly to Insurance Co.; May Leave Fresno

George W. Cartwright is soon to give up the practice of law and devote his interests entirely to an insurance company which he is assisting in proceeding, according to an announcement made by him yesterday upon his return from a vacation trip.

He has already turned over any new practice to Mr. A. C. Suckling, and expects to have his old business closed up by the first of the year.

In promoting this company, he expects to remove from Fresno, although he said yesterday that he did not know where he would go. He claims that little support has been given the company here and as it has great possibilities, he will go where he will be better received.

He also claims that he has a number of men of large financial ability, who have agreed to subscribe stock and put the company on its feet. At the present time, there is insufficient capital subscribed, under the state law, to transact any business.

FRANK SHORT BUYS J STREET LOTS FOR \$16,000

Louis Scholler Disposes of Two Lots Between Merced and Tuolumne

Short to Trade With F. J. Burleigh and Put Up Business Building

With the filing of a deed with the county recorder yesterday, negotiations were closed for the sale of two lots on the east side of J street, between Merced and Tuolumne streets, to Frank H. Short for \$16,000 cash. The property was formerly owned by Louis Scholler and negotiations have been under way for several months. A two-story six rooms on the property, which has a frontage of 50 feet on J street and runs to the alley, will be removed in a few weeks as the result of a deal consummated by Short with F. J. Burleigh.

Burleigh owns two lots, 50 by 150 feet, between the property purchased from Scholler and Short's lots at the corner of J and Merced streets. Burleigh has agreed to trade his two lots to Short for the two lots purchased from Scholler and the two-story rooming and eating house will be removed. This trade will give Short an 115-foot front on J street, extending from the corner of Merced, and 100 feet on Merced street.

Short is also making an effort to buy the small strip of 50 by 75 feet on the alley.

Short has owned the property at J and Merced for several years and tried to buy the Burleigh lots, but was unsuccessful. Then he conceived the idea of dealing with Louis Scholler for his two lots in the same block and negotiations were opened with Burleigh for a trade, the old house on the Scholler lots to be removed and the Burleigh two-story building shifted to the site of the old residence. Though no papers have been drawn up for this trade, the deal has practically been closed.

Short is out of the city but it was stated yesterday that he is making preliminary plans for erecting a business building on the property as soon as the Burleigh house is shifted to the Scholler lots. With the trade just through, Short will have five lots on the corner, with two running to the corner, with two running to the alley and three extending 100 feet on Merced street.

DODGES HORSE; IS HIT BY AUTOMOBILE

Jack Felles Seriously Cut in Diving Into Glass Windshield

In dodging on his bicycle to escape the heels of a frantic horse, Jack Felles, a planting mill employee, residing at 2140 Kern street, swerved in front of an auto driven by Levi Shott of Visalia yesterday morning and was precipitated over the hood of the machine into the windshield, sustaining serious injuries about the head. He was taken to the emergency hospital and later removed to a similar unit. A deep gash was made in Felles' mouth and his head was badly cut and bruised.

The victim was on his way to lunch riding south on J street when the auto, controlled by Mr. and Mrs. Scott, was coming from the north. There was a sufficient berth to allow Felles to pass between the auto and a horse and wagon but when he attempted to make the passage the horse kicked viciously at him. To avoid being struck, Felles turned sharply and drove into the approaching machine. He was thrown over the handle bars and into the glass windshield of the auto, shattering the glass. A small artery was severed and only the quick arrival of the emergency physician stopped possible death from loss of blood. Felles was taken to the emergency hospital and later removed to a local sanitarium where Dr. B. W. Doyle took charge of the case.

Mr. and Mrs. Levi Scott, who reside ten miles from Visalia, were freed from any blame in the accident by spectators.

The children especially enjoyed the re-constructed scenes of the battle of Gettysburg and other historic views as they are studying this phase of American history at this time.

Our Prices On

Blankets and Comforters

25% Lower Than Others

This is one of the reasons that this department, though it has been in existence only two years, is growing to be one of the most important in our store. The other reason is that the people of Fresno are learning that they can depend on what we tell them, and they get just what they pay for. If we say a blanket is 60 per cent wool, it is so, and if it is cotton, we do not hesitate to tell you. Our stock of blankets and comforters is very complete. We have a wide variety of weights and prices.
